REMEMBERING YESTERDAY…

• What are your top 2 key learnings about what it takes to use the GIF effectively with projects?

• Make a note in your workbook.
THE KPARBA PORTFOLIO

Just imagine…

Instead of the project you were to do a GIF for Feed the Future (in general) with Kparba’s entire mission portfolio.

Where all the projects needed to be considered for the second yellow column of the framework…
• What do you think the Kparba’s portfolio’s overall priorities might be?

• How would you help your colleagues at the Mission prioritize what GIF-related constraints to address?

• What are some of the opportunities that could be useful for multiple projects?

• How would you advocate for using the GIF at the Kparba Mission?
